

BIO

Leigh-Anne Harrison is the Executive Director of CHASSE Building Team's Tucson Headquarters. CHASSE Building Team, established in Tucson in 2014, includes a team of 35 who all live, work, and play in Southern Arizona. CHASSE is founded on the purpose of 'Building to make a difference...' for our teammates, our clients building experience, and within the local Arizona communities we serve. Our dedication to teamwork and giving back makes construction more than just building.

Leigh-Anne's passion for construction and helping grow communities began in 2005 when she went to work for a Phoenix Commercial General Contractor. Capitalizing on her entrepreneurial spirit, she quickly demonstrated executive presence and leadership, gaining industry respect from her peers. Since then, she's been instrumental in strategically positioning CHASSE to be the new favorite local contractor through community involvement, partnership, and going above and beyond each and every project.

A few of her key project accomplishments include Tucson Premium Outlets, the January 8th Memorial, Pima Community College Center for Excellence at the Downtown Campus, and the Town of Marana's upcoming Community and Aquatic Center. Her vision for 2023 and beyond is truly inspiring!
