RECREATE RESPONSIBLY

The Marana desert is beautiful, but watch out for dangerous creatures and high temperatures! Before you go on your adventure, consult this safety guide:

- › Check the temperature! If there is an excessive heat warning active, it's best to stay indoors.
- › Always carry the **10 Essentials** in your pack when hiking our trails (from the American Hiking Society) –
 - Appropriate footwear
 - Water, at least 2 liters
 - Safety gear, including light, fire, and a whistle
 - First aid kit
 - Sun protection, including sunscreen, sunglasses, and UV-protective clothing
 - GPS, map and compass backup
 - Calorie dense food
 - Rain gear, quick-drying layers
 - Knife or multitool
 - Shelter
- › Know your dangerous creatures! Steer clear of snakes, scorpions, Gila monsters, spiders, and centipedes.
- › Leave no trace behind! Dispose of all waste in proper trash bins, stay on the trail, and leave what you find.
- › Remember your manners when hiking! For safety, all trail users should yield to equestrians. For other right-of-way protocol—when in doubt, yield.
