

WATER QUALITY – BACKFLOW PREVENTION REQUEST FOR NON-POTABLE DISCONNECTION

Pursuant to Marana Town Code 14-8-3, single family residential homes may disconnect from the non-potable irrigation system and remove their backflow assembly subject to the following fees, inspections and removal of equipment. Notice must be provided to Marana Water at least 48 hours prior to planned non-potable disconnect, removal of backflow device and 3-5 feet of non-potable plumbing line, so that an inspection of disconnection can be conducted. Please contact the Water Quality Inspector at 520-382-2570 to set up lock off of non-potable system and inspection dates and times (lock off and inspection dates may be different). In addition to these fees, resident must contact the Town of Marana Development Services to acquire a building permit to re-establish the irrigation system. Development Services can be reached at 520-382-2600.

FEES

The following fees will be billed to the water customer account:

Trip Charge for Disconnect - \$52.50

Inspection Fee - \$35.00
