

Bulk Water

Bulk Water customers include hydrant meters and standpipe accounts and are subject to the following rates and appropriate taxes:

- Water Flat/Minimum
- Water Consumption
- Groundwater Resource Fee

The water flat fee only applies to hydrant meters and is the same regardless of meter location and water consumption. This will be the same amount each month. There is no monthly fee for standpipe customers.

The water consumption and groundwater resource fee are all billed per 1,000 gallons each month. Water consumption and groundwater resource fee are flat rates regardless of water use, meaning each 1,000 gallons is billed at the same rate.

To apply for either a hydrant meter or standpipe account, [click here](#).
